News from EFG
No. 1/2011

At Stockholm Furniture Fair
this February the visitors met
a different EFG. An EFG with
more news than ever.

New furniture for meetings

EFG HideTech & EFG HideTech AVM

EFG HideTech AVM

This is the ultimate solution.
With a touchscreen, speakers,
microphone and camera all inte-
grated into the table.

EFG HideTech are tables for meetings – standing or sitting, where everyone can see or be seen.

The EFG HideTech range of tables is designed for the future when more and more working time is spent in meetings. A future where technology isn't only an integral part of working, but also an integral part of the interior design.

It's about technology you access from the desk-top via the next generation cable management. It's about new table top designs that ensure everyone can see and be seen, in video conferences, for instance.

New screens for focusing

EFG Room, EFG Flow & EFG pLay

Start by building your room with EFG Room screen walls, which have Class A for both sound-absorbing and sound attenuation.

Reinforce your personal sphere with EFG Flow desk screens.

And add EFG pLay on walls, or suspended from the ceiling, for both sound absorption and decoration.

EFG Room

EFG Flow

EFG pLay

Meet the screen systems that let you unite the comfort and integrity of your own space with the flexibility in design of an open-plan office.

The end result? The same privacy and sound absorption as a cellular office, but with colours and shapes that are so much more fun. All created with the focus on the environment – at work and at large.

SWEDEN

PORT PAYÉ

Lean back and enjoy the difference

Savo Invite

Savo Invite has a unique function that supports the small of your back even when you lean backwards. No matter how tall you are.

You'll find more info
on all our new products
at www.efg.info

As meeting areas become workplaces, it's more important than ever that the seating provides good sitting comfort. Savo Invite has been developed with exactly that in mind. It's based on our philosophy for office seating, where ergonomics are just one of several factors. Our guiding principle is the total experience.

Have a seat on a Savo Invite or Savo Invite High. Now lean back, and you'll understand what we mean.
